Lathund – Webbtjänster för Macintoshanvändare

2010-04-06

Inledning

Botkyrka Kommun har några webbtjänster som bl.a. ger elever tillgång till en uppsättning pedagogiska program och tillåter föräldrar att ansöka om skola, rapportera frånvaro m.m. Ett exempel är Smartskola som är en funktion som nås från elevdatorerna och som är anpassad för förskolan och grundskolan. Genom Smart skola får både elever och lärare tillgång till en uppsättning pedagogiska program, verktyg och tjänster. Smartskola finns på följande adress: <http://smartskola.botkyrka.se>

Smartskola bygger på s.k. Citrixtekniken som fördelar en servers (en värddator) resurser till flera samtidiga användare och tillämpningar. Användare som har en Macintoshdator har haft problem att använda Smartskola. Den här lathunden ska hjälpa Macintoshanvändare att ansluta sig dit.

Tillvägagångssätt

Surfa till www.citrix.com och klicka på länken ”downloads” i menyn högt upp på sidan:

The screenshot shows the Citrix website homepage. At the top right, there is a navigation menu with links: Buy, Demo, Education, Events, Communities, Global Sites, My Citri. Below this is a main navigation bar with links: Products & Solutions, Downloads (circled in red), Support, Partners, News, and a Search box. Below the navigation bar are tabs for Synergy, Desktops, Servers, Networks, and Collaboration. The main content area features a large banner for the Citrix Synergy 2010 event, with the text "Top 5 reasons to attend Synergy" and a list of reasons: 1 Desktop Virtualization, 2 Mark Templeton and Michael Dell, 3 XenApp 6 in-depth, 4 Hands-on Learning Labs, 5 Virtualization, Networking and Cloud Experts. Below the banner is a "Register Now" button. At the bottom of the page, there are three promotional sections: "SIMPLICITY IS POWER" with a cat image, "Top Picks & Downloads" with a list of links, and "GoToTraining" with a "LEARN MORE" button.

Klicka på länken "Citrix Clients".

Välj sedan "Mac" under "Select OS/Hardware" och klicka på länken "Online Plug-in for Mac – Version xx" som dyker upp längre ner på sidan.

The screenshot shows the Citrix XenApp download page. At the top left is the Citrix logo. The navigation menu includes "Products & Solutions", "Downloads", "Support", "Partners", and "News". A search box is located at the top right. Below the navigation is a breadcrumb trail: "Support > Downloads".

On the left side, there is a "Log In" button and a "Password" field. Below this is a list of links: "Service Center", "Service", "on Advantage", "support Programs", "Maintenance", "Maintenance", "ort Programs", "Compliance", "pport Case", "ecycle Support", "s", "tivation", "ontacts".

The main content area features the heading "Find all the downloads you need—fast." Below this is a "Switch Product" dropdown menu set to "Citrix XenApp". Underneath is the section "Or Refine Your Results" with three dropdown menus: "Select Product Version (optional)" set to "--Select a Product Version--", "Select OS/Hardware (optional)" set to "Mac" (circled in red), and "Select Download Category (optional)" set to "Clients / Plug-ins".

Below the filters, it says "Results for: -- XenApp > Clients / Plug-ins > Mac". A note indicates "Indicates restricted access. For further assistance, please contact Customer Service." Below this is a section titled "Clients / Plug-ins" with a "Hide Downloads" link. Underneath is a sub-section for "-- XenApp (all product versions)" containing a single result: "Online Plug-in for Mac - Version 11.1 NEW!" with a "Mac" label. A red arrow points to this result. Another note indicates "Indicates restricted access. For further assistance, please contact Customer Service."

On the right side, there are two sections: "Related Documents" with links to "Citrix XenApp Comparative Matrix" and "Citrix Plug-in and Clients Feature Matrix", and "Featured Downloads" with links to "XenApp Clients and Plug-ins", "Linux Clients", "Citrix Receiver for Windows Mobile", "License Server Downloads", and "Citrix Receiver for iPhone".

At the bottom left, the text "Citrix on:" is partially visible.

Klicka på länken "Download" som finns bredvid texten "Citrix online web plug-in – version xx".

The screenshot shows a web page for a Citrix release. The main heading is "Online Plug-in for Mac - Version 11.1 NEW!". Below it, the release date is "3/1/2010". There is a "Back to results" button. The text describes the release as the first to integrate Citrix Receiver and Dazzle for Mac users, along with support for Branch Repeater and enhanced client certificate handling. It mentions that Mac users can now take advantage of update management and self-service capabilities previously only available to Windows users. It also states that the "Citrix Online Plug-in for Mac" allows access to hosted applications from a desktop or web interface, and that this release includes a specifically designed Citrix online web plug-in for the Web Interface. A note mentions export or import restrictions for products with strong encryption. There are sections for "General Documentation" (with links to Readme and Citrix eDocs Library) and "Clients". The "Clients" section contains a table with two rows. The first row is for "Citrix online plug-in for Mac - Version 11.1" with a "Download" button. The second row is for "Citrix online web plug-in - Version 11.1" with a "Download" button. A red arrow points to the second row, and a red circle highlights the "Download" button for that row.

loads.

Online Plug-in for Mac - Version 11.1 NEW!

Release Date: 3/1/2010

[Back to results](#)

This release is the first to integrate Citrix Receiver and Dazzle for Mac users, as well as support for Branch Repeater and enhanced client certificate handling, among other enhancements. Mac users can now take advantage of the update management and self-service capabilities of Receiver and Dazzle previously only available to Windows users.

Use the "Citrix Online Plug-in for Mac" to access your hosted applications from your desktop or a web interface. Also in this release you'll find the Citrix online web plug-in, which has been specifically designed to optimize the user experience on Web Interface.

*View the list of countries that may have **export or import restrictions** for products containing strong (128-bit or greater) encryption.*
